Some Experience: Heroku

PROJECTS

ClassSync | Developer | Heroku | Github   July 2020
A web app that provides educators a way to track student's engagement during remote classroom settings.
- Utilized a combination of different libraries to capture face & speech detection data
- Socket.io architecture to transmit live data throughout the app from the server side to the client side
- Real time updates on charts and graphs using chart.js

No-Bad-Apples | Sole Developer | Heroku | Github   June 2020
Single player arcade style game leveraging Phaser.io library. A player moves the character to collect only ripe apples while trying to avoid the rotten apples.
- Implemented collision detection for numerous sprites
- Developed a timer and health counter to end game
- Added audio, tint effect, and styling using HTML and CSS

Sneaker-Shopper | Developer | Heroku | Github   June 2020
An eCommerce website designed to sell various types of athletic footwear
- Developed checkout, cart, product page and seeded the database by leveraging Swaggerhub's API
- Implemented CRUD functionality for state management and observables
- Created reusable components to maintain code cleanliness and best practices
- Collaborated with a team of 3 other developers in a remote setting using paired programming and best practices in project
- management to meet project objectives.

EXPERIENCE

Citigroup, CitiBank: Citigold Relationship Manager   Dec 2018 - Feb 2020
New York, New York
- Effectively managed a portfolio of 800+ high net worth individuals totaling $400+ million in asset management.
- Collaborated with other sectors of CitiGroup to ensure customer's needs were met in their financial goals.
- Built relationships by calling on existing clients to truly understand their personal and business needs. Analyzed product and service growth opportunities to ensure profitability of the portfolio. Results included a 20% increase in year to year growth of portfolio assets.
- Mentored and coached branch offices on best practices in client outreach and building client relationships.

JPMorgan Chase Bank & Co : Chase Private Client Banker   June 2017 - Dec 2018
New York, New York
- Consistently exceed monthly and quarterly goals.
- Grow pipeline through canvassing and call efforts
- Deepen relationship with client by executing a strict follow up process
- Strong organizational skill, great attention to detail
- Resolving conflicts while preserving friendly and professional environment

EDUCATION

Fullstack Academy - Software Engineering Immersive   July 2020
Queen's College - B.A. Bachelor of Arts in Psychology   June 2015
